Annual Operations Report FY2025

Prepared by Group Operations

1. Executive Summary

FY2025 was a year of steady growth despite volatile energy prices across Europe.

Group revenue for FY2025 was EUR 412.6 million, an increase of 6.3% on the prior year.

The adjusted EBITDA margin was 14.8%.

The group lost-time injury frequency rate (LTIFR) improved to 0.62 per million hours worked.

The order backlog at year end stood at EUR 188 million.

Capital expenditure totalled EUR 27.4 million, most of it on the Porto Foundry furnace upgrade.

2. Site Review: Tampere Works (Finland)

The Tampere Works site in Finland is led by site director Sofia Zielinski. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	34,520
On-time delivery	98.3%
Lost-time incidents	6
Energy consumption	30,660 MWh
Headcount	189

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

3. Site Review: Gdansk Assembly (Poland)

The Gdansk Assembly site in Poland is led by site director Mikael Ferreira. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	15,710
On-time delivery	90.8%
Lost-time incidents	0
Energy consumption	24,780 MWh
Headcount	359

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

4. Site Review: Porto Foundry (Portugal)

The Porto Foundry site in Portugal is led by site director Nadia Kowalski. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	43,520
On-time delivery	91.4%
Lost-time incidents	3
Energy consumption	7,715 MWh
Headcount	704

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

5. Site Review: Brno Machining (Czechia)

The Brno Machining site in Czechia is led by site director Viktor Kowalski. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	54,320
On-time delivery	87.6%
Lost-time incidents	3
Energy consumption	29,830 MWh
Headcount	782

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

6. Site Review: Lyon Systems (France)

The Lyon Systems site in France is led by site director Lea Moreau. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	55,270
On-time delivery	93.6%
Lost-time incidents	0
Energy consumption	13,055 MWh
Headcount	187

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

7. Site Review: Bilbao Plant (Spain)

The Bilbao Plant site in Spain is led by site director Marta Zielinski. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	31,720
On-time delivery	91.4%
Lost-time incidents	8
Energy consumption	8,820 MWh
Headcount	724

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

8. Site Review: Graz Electronics (Austria)

The Graz Electronics site in Austria is led by site director Freja Novak. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	22,800
On-time delivery	87.3%
Lost-time incidents	9
Energy consumption	30,165 MWh
Headcount	332

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.

9. Site Review: Aarhus Service Centre (Denmark)

The Aarhus Service Centre site in Denmark is led by site director Ines Nielsen. The table below summarises its key operating indicators for the fiscal year.

Metric	FY2025
Units produced	52,870
On-time delivery	95.3%
Lost-time incidents	9
Energy consumption	6,440 MWh
Headcount	773

Improvement priorities for FY2026 include lean flow, energy efficiency and supplier quality.
